

SU MANIFESTO FORM 2020/21

Position: Entertainments Officer

Name: Jack Freestone

Course: Stage Management

Year: Year 1

Email: jack.freestone@cssd.ac.uk

What I want to achieve?

1. Work with liberation and minority officers to ensure all events held by Central SU are inclusive and accessible to all students.
2. Deliver freshers regardless of the current COVID-19 circumstances to a standard that meets the feedback of last year's fresher events.
3. Ensure that all events are easy to travel too, taking into considerations cost of travel and tube zones etc.
4. Any students that may have new ideas for events for the Central SU are given the opportunity to pitch them.
5. Another goal is also to give students a more friendly introduction to Central and the community, making sure that this fits in with all student timetables.

Hi, my name is Jack Freestone I am going to run for the position of Entertainments Officer. I think I would be the ideal candidate as I have lots of transferable skills, that are suited to the role which include but are not limited to organisation, communication and teamwork. I have learnt a lot of these in the roles I would normally fulfil on my course which is Stage Management, meaning they tend to come quite naturally.

If elected I feel one of the key goals for me would be to ensure that there was some sort of freshers provided regardless of the current COVID 19 circumstances ensuring students get the same standard of induction to Central. I think this is important as often a new student can be very nervous and needs the support of others to naturally thrive in a new environment. I also feel within this it is important that the events that introduce new students to central fit in with timetables well.

I aim to work alongside liberation and minority officers to ensure that all events pitched or held by the Central SU are inclusive and accessible to all students. As I believe it is important for the student voice to be heard and the current climate at Central recognised. If you have any questions, please do not hesitate to contact me on the information on this page.
